

**IT'S TIME TO PUT AWAY YOUR  
PRUNING TOOLS**

# SAVE TIME, TROUBLE AND MONEY WITH NEW KUDOS® FROM FINE AMERICAS

Why rely on expensive, time-consuming hand pruning when you can get cost-effective canopy management with new Kudos® 27.5 WDG plant growth regulator from Fine Americas. As a direct replacement for Apogee®, Kudos offers you these key benefits:

- Provides proven tree canopy management and improved crop quality in apples and sweet cherries
- Cuts pruning costs by controlling new shoot growth
- Reduces the incidence and severity of fire blight on new shoots
- Improves light penetration for better color development in red and bi-color apples
- Enhances insect control by allowing better spray penetration
- Gives you the same level of confidence that comes with every Fine Americas product, including Blush®, Exilis Plus®, Falgro®, Motivate®, Novagib® and Perlan®

So contact your crop protection retailer today and ask for new Kudos, or visit [fine-americas.com](http://fine-americas.com) to learn more.
